

Wellness – Energy - Weightloss

Dynamic Physical Therapy has recently become associates/distributors for the #1 vitamin supplement company in North America, Usana Health Sciences. If you have an interest in strengthening your immune system increasing your energy level, reducing your weight or just want to live a healthier lifestyle then consider USANA.

DISCOVER AND LIVE THE HEALTHY
LIFESTYLE YOU DREAM OF

Be active

Enjoy life

Maintain health

We are offering a free 5 minute health assessment on our website dynamicpt.usana.com. It is like going to a nutritionist. There is also a wealth of knowledge on this website. The FDA has stated that 3% of the population gets enough nutrients from the food they eat on a daily basis, the rest of us need vitamins for optimal energy and health. My partner, Michael and I have been taking these products since August and we are both very impressed with how much energy they provide us. Michael did a 5 day reset and meal replacement and has lost 22 lbs.

Please call us after you print out the 1st page of the health assessment and we will discuss your options to a healthier more energetic lifestyle. Obviously we are still Physical Therapists, but we feel this is just another way to help people feel good and improve their health. We are excited, so take that health assessment today.
